

THE IBIZA EXPERIENCE, FOR A QUANTUM REVOLUTION OF CONSCIOUSNESS.

« They did not know it was impossible, so they did it »

Do you believe that Ibiza and its inhabitants can change something in this world? Become a positive example of conscious human beings ?

The RISE-UP IBIZA movement thinks so .

We can do together for good in Ibiza for ourselves and for the world, so we offer a special experience that unites social psychology, collective therapy, religious beliefs, quantum physics and the prophecies of Victory of our and of human consciousness.

The Basis : our heart and our brain are powerful generators of electromagnetic fields which influence our physical body, our mind and our environment.

When our hearts unite, we create together a resonance of waves which propagate in all directions. Being in love, singing, being happy, meditating or praying are amplifying states of this "field of cardiac coherence".

The Place : Around the world for the first phase of the experience. IBIZA for the second phase of the experiment.

The Idea : Bring together the maximum of hearts and minds to meditate together and at the same time, at least one minute each day at **20 : 20**.

The Objective : To obtain a critical mass of 144,000 people meditating at the same time on the island of IBIZA so that the experience comes into resonance with the most known and expected prophecy of Western culture.

Hypothesis : The resonance of 144,000 hearts-consciousnesses united and meditating at the same time in the same place will cause a chain reaction, a "butterfly effect" very positive for Ibiza, its inhabitants, Humanity and planet Earth.

The experimental protocol:

1. Set the alarm daily two hours: 20:18 and **20 : 20pm**
2. When you hear the first alarm, you have 2 minutes to stop what you are doing and prepare to connect.
3. When sounds **20 : 20**, just open your heart and get in tune with your best vibration. Emit and receive a benevolent field of Love and Consciousness from your heart, around you and in all directions ; Like a concentrate of Love that would spread all over the planet and all the people you will think of.

Why number 144,000 ?

- ✦ The number of inhabitants of Ibiza since April 6, 2014 approximately .
- ✦ The number of "strands of light" that make up our body of Light and constitute the meridians of acupuncture.
- ✦ The number of peta of the chakra crowns.
- ✦ Astronomical unit of time called baktun in the Mayan calendar .
- ✦ Number of master seated in the Shamballa Palace.
- ✦ The number of participants who should "save humanity" and "open the doors of paradise" according to the biblical prophecy of St. John called Revelation .
- ✦ The number of quartz crystals in the quantum software of planet Earth which is 2000 meters below Es Vedrà.
- ✦ The Divine Resonance, a galactic encounter code, the title of a book: *The AnarChrist and the 144,000 Saviors*
A resonance of symbols for a resonance of human consciousness, through daily meditation synchronized with a critical mass.

In 2020, Rise Up offers meetings to be physically together and amplify the experience of our hearts united to wise representatives of world cultures, scientists and therapists. Our objective for up domino effect :

- ✦ Domino Effect 1: Gather 5040 people to meditate, at the same time and in the same place. 5,040 people represent 3.5% of the 144,000 people who more or less represent the population of Ibiza - **on May 21, 22, 23 and 24** at the San Rafael racetrack .

This session will be supported by Nassim Hamein and Philippe Bobola (professors at the University of quantum physics) to demonstrate and validate the experience of Ibiza and synchronized meditation. Also, as every year, shamans from Mongolia, African Dogons, Celts and therapists from Ibiza will support this experience and share knowledge, wisdom and ceremonies .

- ✦ Domino Effect 2 : **June 21** in Ibiza. Gather 144,000 people in Ibiza to meditate at the same time and in the same place together at 8:20 p.m.

It would be the ultimate goal to resonate and carry out the experience. Thank you for engaging, sharing and uniting your heart with ours. For a victory of Love, for our evolution of consciousness, to make Ibiza a "capital of peace" , a center of healing and awakening
